## EXPERIENCE

### Project Manager – Capstone Project (Plague Village)

Wake Technical Community College
Aug 2025 – Present

- Led development of *Plague Village*, an interactive software project combining storytelling, game

mechanics, and data-driven systems
- Managed a multi-phase Agile workflow, including sprint planning, stand-ups, and retrospective reviews
- Coordinated a team of developers to design and implement features using Python, HTML, JavaScript, and SQL
- Defined project scope, tracked deliverables, and adjusted timelines to meet milestones and deadlines
- Oversaw version control and collaboration using Git and GitHub, ensuring smooth integration of team contributions
- Identified and resolved technical and design challenges, improving overall system functionality and user experience
- Directed testing efforts (unit, integration, and UI) to ensure software reliability and performance
- Documented architecture, data models, and development decisions for evaluation and future scalability

**Cashier -** Publix

MAY 2025 - PRESENT

- Deliver clear, professional customer support and resolve issues in real time
- Manage multiple tasks efficiently in a fast-paced environment
- Collaborate with team members to support smooth front-end operations
- Demonstrate reliability and strong time management through consistent attendance

**Volunteer -** Watch Tower Bible And Tract Society

DEC 2018 - PRESENT

- Serve as a volunteer in worldwide outreach / educational activities.
- Create and enact sample presentations for training purposes.
- Conduct weekly 1:1 coaching sessions with interested individuals and current students.
- Deal with people from all backgrounds with dignity and respect.
- Use active listening skills to communicate clearly in discussions.
- Implement new strategies to increase volunteer participation and involvement.
